INTELLIGENT CLASSIFICATION AND INDEXING

IDENTIFYING TYPES OF DOCUMENTS, PROCESSING, & ROUTING

Once CapturePoint identifies the type of document it can be instructed to search the page for an invoice or PO number, vendor information, or even amounts and totals. Intelligent Indexing eliminates the most time-intensive step in scanning your business documents and does it with higher accuracy, whether it's text, barcode, or handwriting.

TOTAL AUTOMATION
POWERFUL FEATURES THAT WILL SAVE YOUR BUSINESS TIME & MONEY

DOCUMENT TYPE RECOGNITION
AUTOMATICALLY CLASSIFY AND ROUTE YOUR DOCUMENTS

CapturePoint begins by automatically classifying your documents. It understands the difference between an invoice, a PO, or a packing list and can identify vendor invoice A from vendor invoice B to accurately sort, process, and route them intelligently without human interaction.

APPROVAL PROCESSING

DECISION-BASED ROUTING THAT CAN EVALUATE PROPERTIES
AND FORMULAS ON THE FLY

Built into Content Central is a powerful approval-processing engine, giving you the ability to approve by vendor name or type and route based on the amount. These electronic processes let you easily manage the stages of a document's lifecycle ad-hoc or by automatically moving them along workflow paths that you define. You can even do 2 and 3-way matching between your invoice, PO, and any other supporting data.

WORKFLOW

FINE-TUNED FOR POWER AND PERFORMANCE

Capable of handling the heaviest loads with speed, Content Central's workflow engine also contains a library of pre-defined rules and the ability to create your own personalized ones.

Any process, approval, or integration you can dream up.

INTEGRATION

CONTENT CENTRAL INTEGRATES WITH MANY SOFTWARE
PACKAGES, FROM SAGE TO QUICKBOOKS OR ANY ERP TO MAKE
ACCOUNTING EASY
